Dear Hiring Manager,

I am writing to express my interest in opportunities within your organization. I am a **Full-Stack .NET Developer with over 3 years of experience at Accenture**, developing and enhancing enterprise web applications and RESTful APIs using **C#, ASP.NET Core, Entity Framework Core, React, SQL Server, and Azure**.

In my current role as an **Application Development Analyst**, I have contributed to enterprise applications for healthcare clients, delivering application features, REST API enhancements, database solutions, third-party integrations, and automation. My experience also includes **SQL Server, SSIS, PowerShell, Git, Azure DevOps, CI/CD, and Sitecore**, along with implementing maintainable solutions using established software development practices.

Throughout my experience, I have collaborated with cross-functional teams in Agile environments to understand requirements, design technical solutions, develop and test features, review code, and support successful application releases. I enjoy solving technical problems, improving existing applications, and building reliable solutions that address real business requirements.

I am currently seeking an opportunity where I can contribute my .NET development experience, take on greater technical responsibilities, and continue growing as a full-stack developer. I am also keen to expand my expertise in **emerging technologies, including AI, and explore how they can be integrated into modern software solutions**.

Thank you for considering my application. I look forward to the opportunity to discuss how my experience and skills can contribute to your team.

Sincerely,
Anto Godwin N
